

JOUKO KÄRKKÄINEN

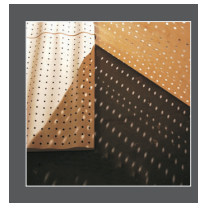

Ply Acoustic Elements

Sky

Moon

Matrix

Ply Acoustic Elements are perforated acoustic panels for walls and ceilings. By combining these elements can be create continueing 3-dimensonal acoustic surfaces.

Acoustic Elements are perforated in three different styles: Sky, Moon and Matrix.

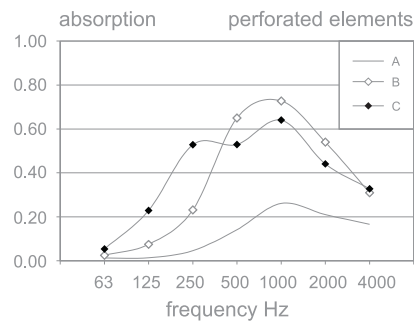

Ply Sky is perforated like a stars in the sky. Ply Moon has wider perforation and better acoustic features. Ply Matrix is designed for architectural use.

Acoustic tests according to ISO Standards have been carried out in 2005. For better acoustic features foam can be used inside the elements.

The size of one element is 600 x 600 mm.

Sales: www.showroomfinland.fi

Custom made Ply-Acoustic Elements and projects straight from the designer.
